

A medical professional, possibly a nurse or technician, is shown in profile, wearing a surgical cap, face mask, and gloves. They are interacting with a piece of medical equipment, likely a monitor or ultrasound machine. The entire image is overlaid with a strong red color filter. The text 'PASS' and 'MOUSSO' is prominently displayed in white, bold, sans-serif font, separated by a white square containing a red cross symbol.

PASS SANTÉ MOUSSO & ASSOCIATED SOLUTIONS

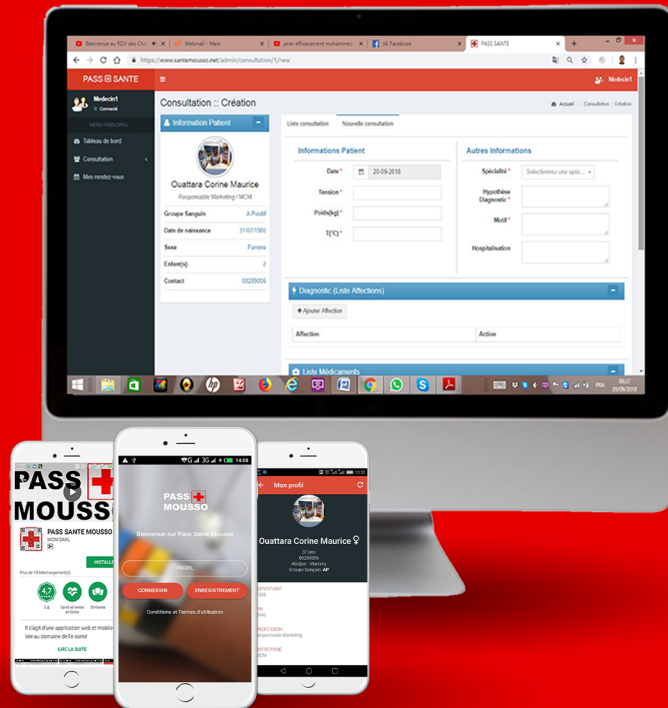

MCM is an innovative Ivorian company specializing in the digitalization of healthcare services through integrated solutions. Our mission is to make healthcare accessible, secure, and efficient for everyone by leveraging advanced technologies. We are dedicated to modernizing healthcare systems and improving patient outcomes through digital platforms, telemedicine solutions, and personalized health monitoring tools.

We operate under **Compliance Certificate N°0724/2024/MSHPCMU/DGSHP/DEPPS/DIR/SDGAESP/nkj** and the **Ministerial Decree of the Republic of Côte d'Ivoire N°00079/MSHPCMU/DGS/DEPPS/DU 04/06/2024**, which officially recognizes and supports our role in digital health support. With this institutional backing, MCM aims to drive sustainable transformation in the healthcare ecosystem across Côte d'Ivoire and beyond.

01

PASS SANTÉ MOUSSO: THE DIGITAL HEALTH RECORD

Pass Santé Moussou is a digital solution that allows patients to manage their medical data easily and securely. This platform facilitates communication between patients, healthcare professionals, and medical institutions, offering real-time monitoring.

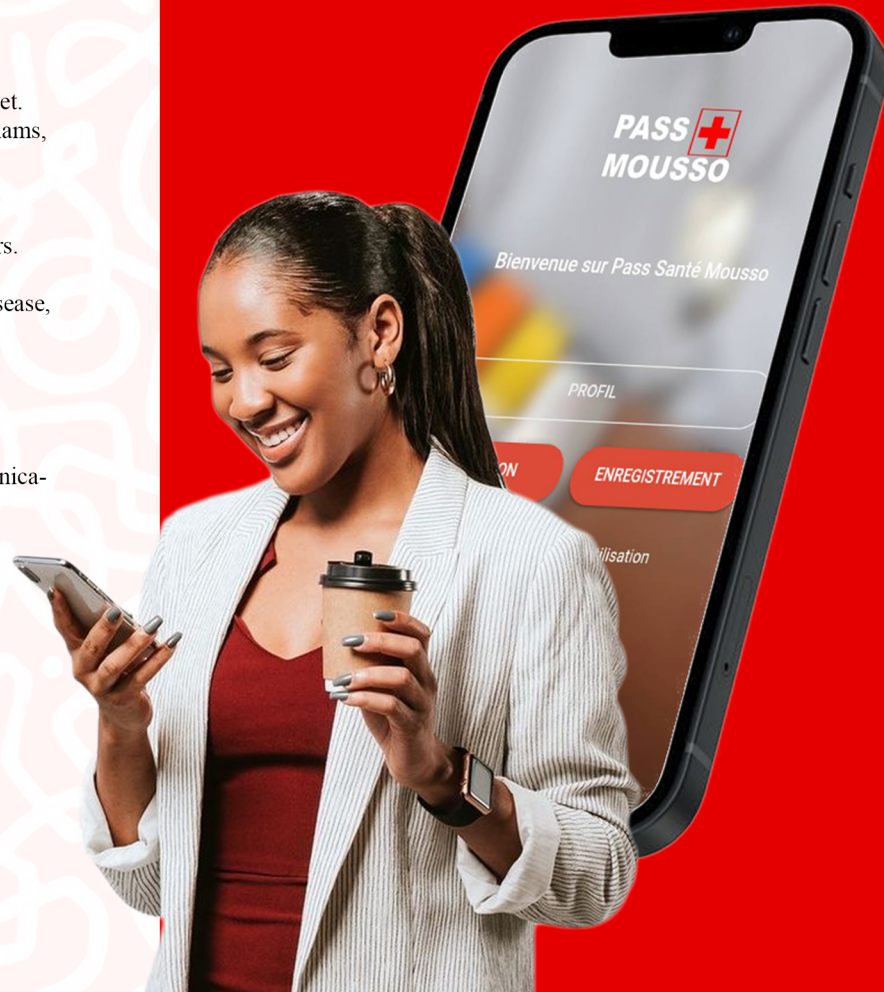

Main Features:

- Digital health record accessible via a personalized card or bracelet.
- Management of medical records (consultations, prescriptions, exams, etc.).
- Integrated teleconsultation with healthcare professionals.
- Vaccination tracking and monitoring of vital signs.
- Notifications for medical appointments and medication reminders.
- Interoperability with public and private hospital systems.
- Management of chronic diseases (cancer, diabetes, sickle cell disease, dialysis, etc.)

Benefits:

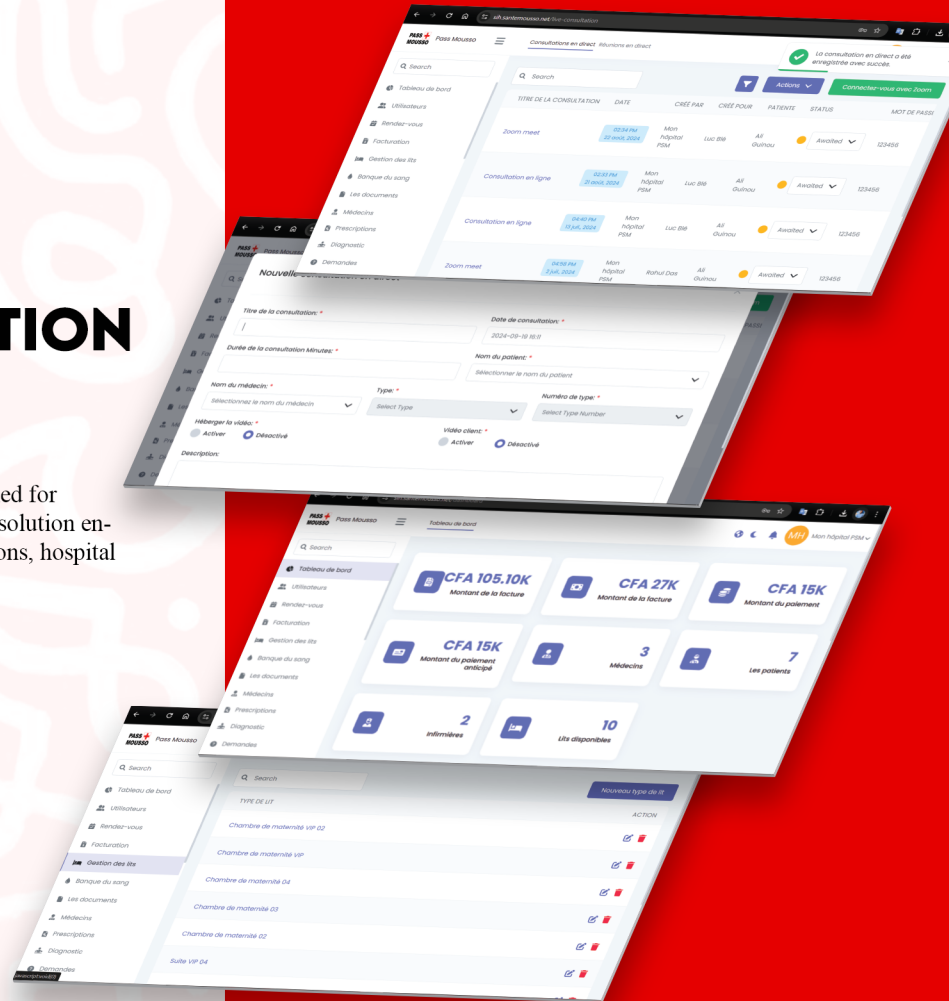

- Quick access to health information, even in emergencies.
- Simplifies the management of chronic diseases.
- Strengthens patient-doctor relationships through smooth communication.

02

HOSPITAL INFORMATION SYSTEM (HIS)

The **HIS Pass Santé Moussou** is an all-in-one platform designed for healthcare institutions to optimize service management. This solution ensures smooth administration of patient admissions, consultations, hospital stays, and billing.

Main Features:

- Gestion des dossiers médicaux électroniques (DME).
- Gestion des consultations et des hospitalisations.
- Facturation automatisée et gestion des paiements.
- Gestion des stocks de médicaments et du matériel médical.
- Suivi des ressources humaines et des plannings des médecins.
- Tableaux de bord pour une analyse en temps réel des performances hospitalières.

Benefits:

- Réduit les délais et erreurs dans la gestion hospitalière.
- Améliore la prise en charge des patients.
- Offre une visibilité complète sur les opérations médicales et financières.
